Average= 59.65

23 students passed the test out of the 30 students that took it. 14 got As, 6 got Bs, and 3 got Cs. I hope that you're enjoying your break, and that you'll come back refreshed and ready for the final phase of the semester.

On Monday, we'll continue with our discussion of Section 9.2. Please, be sure to read the whole section before Monday. See you then.

Note: Only the last four digits of your id appears, and if the first of those four digits is a zero, you'll see only the last three digits. The class average is about 75%, which shows that most of you did a great job this time around, and I urge you to continue.
