

Game Rules for Real Analysis

MAA-5616, Section 01: Fall, 1997

DM 442B T/R 18:25 - 19:40

Instructor: Dr. David Ritter

Office: DM-419A

Phone: 348-2011

Office Hours: M,W 18:30-19:30 (F.C.F.S.)
T,R 17:00-18:00 (F.C.F.S.)
Other hours are by appointment only.

Text: Real Analysis, Third Edition, by H. L. Royden,
Prentice-Hall, Inc., 1988

Evaluation:

- (1) Class discussions and presentations of solutions to assigned problems in class. (Everyone must present at least one problem from each chapter.)
- (2) Examination of written solutions which have been handed in. (I will not be exhaustive in doing this.)
- (3) Performance on pop-quizzes.
- (4) Performance on a multiple part Final Exam

Restrictions: (1) You must not consult additional books or supplementary material concerning Advanced Calculus, Real Analysis, Topology, or Measure Theory.

(2) You may discuss the problems amongst yourselves. You are, however, to write up your solutions independently. Under no circumstances are you to copy each other on common or bonus problems, pop quizzes, and exams.
