Geol 5828

Assignment 7:

1. Download STANMOD from http://www.pc-progress.cz/Fr_Hydrus.htm

2. Use inverse modeling to fit the CDE to the glass bead data given at
   http://www.fiu.edu/~sukopm/GLY5828/GlassBeadCTData.xls. Use the
   information on the glass bead BTC measurements in the Glass bead BTC
   presentation on the web for initial guesses of v and D.
