

MAC 2311-Calc.I - U14 - Spring 2016 Tu 9:20-12:00, Th 9:20-11:00 - EC 2840

Textbook: Calculus, Early transcendentals, Anton & others, 10-th edition

Instructor: Tedi Draghici

Office: DM 432B Phone: (305) 348-2028

E-mail: draghici@fiu.edu

Office Hours: MF 10:00-12:00

Web: <http://www.fiu.edu/~draghici>

Pre-requisite: MAC 1147 with a grade of C or better, or, both MAC 1114 and MAC 1140 with grades of C or better, or, for students who have not previously taken a college math class, a score of 75 or better on the ALEKS Exam.

Course Objectives: Upon completion, students should demonstrate:

1. strong computational skills of limits, derivatives and basic anti-derivatives;
2. good understanding of the major topics (limits and continuity, differentiation and applications, basic anti-derivatives) and ability to use these in applications;
3. reasonable reasoning skills - e.g. comprehend and reproduce basic proofs.

Method of Evaluation: Your final grade in the course is based on:

1. Best 10 scores out of 12 in class quizzes/worksheets (100 pts total)
2. Three in-class exams (100 points each) - planned dates:
 - Exam 1** - Tuesday, Feb. 09;
 - Exam 2** - Tuesday, Mar. 08;
 - Exam 3** - Tuesday, Apr. 19;
3. **FINAL EXAM (150 points) - comprehensive exam - TBA**

Grade-scale: The following percentages will guarantee the associated grade:

> 90	: A	80-85	: B	65-75	: C	< 50	: F
88-90	: A-	78-80	: B-	55-65	: D		
85-88	: B+	75-78	: C+	50-55	: D-		

NO MAKEUP QUIZZES/WORKSHEETS OR EXAMS WILL BE GIVEN. If you have a **documented** medical or professional excuse for missing an exam, that percentage of your grade may be made up on the final.

Attendance: Optional, but I hope you will find it useful to be in class.

Calculator: You may use one for your homework, but generally won't need one, and **you will not be allowed one (of any kind)** during exams.

Drop deadlines - Last day to drop/withdraw with tuition refund: Tue. Jan. 19;
-- Last day to drop with a DR grade (but no refund): Monday, March 21.

Topics to be covered: Most sections from Chapters 1-4, plus parts of 5.2, 5.3, 10.1. Small parts of Chapter 0 may be reviewed very fast.

Please review Chapter 0 on your own as much as possible, but do not fall behind with the material that is being taught.

Suggested problems for each section will be recorded on the website. You have to check the web page often for updates.

Help and Free Tutoring: <http://mathstat.fiu.edu/useful-information/math-resources/calculus-ii/>

Learning Assistant: Olivera Dimoska <odimo001@fiu.edu>
Help time outside class -- TBA

The instructor reserves the right to make changes to this syllabus. These eventual changes would be announced in class and you are responsible to be aware of them.

Keys for Success: Having a strong Calculus 1 background is important, but even more important is your attitude and effort in the class. You are expected to spend a minimum of 12 hours/week working on the suggested homework problems, reading the corresponding sections of the text and watching video-lectures when required. Studying with a group can be very helpful and is encouraged, but be sure to do this in an ACTIVE way. Don't let your peers (or an LA, or tutor) think and work for you. Before an exam or quiz, you should be at the point where you can work, ON YOUR OWN, the problems from the corresponding sections. You will often need to spend time reviewing the concepts of each lecture before you attempt the suggested homework problems. When you will be asked to watch video-lectures at home, please DO so. I intend to spend more time on examples in class, but it is still VERY important that you see the presentation of the theory and understand the definitions and notions from it. When you have questions, you are encouraged to come to my office hours, consult the LA's, or try the free tutoring services. It is VERY important that you keep up with the course material and you don't fall behind.

EXTRA TUITION CHARGES FOR REPEATED COURSES AND EXCESS HOURS: The Florida Legislature has mandated a tuition surcharge for the third time a student either takes or attempts a college credit course. This charge should serve as additional motivation for you not to have to retake this course. In other words, DO THE HOMEWORK!!!!

Other Rules:

Any beepers/cell phones, etc must be turned off during class.

If you cannot arrive and leave on time, see me and explain.

If you find a grading error, write a note to me at the top of your paper and return it promptly.

I will try to identify any cheating that may occur in the course. To avoid unfounded suspicion, please show all your work, turn in any scratch paper you use in exams, and avoid sitting next to your study partners during exams. At the start of an exam you will be asked to place in your bag all electronic devices, including cell-phones, watches.

ACADEMIC MISCONDUCT includes (but is not limited to) giving or receiving assistance on a test, quiz, or homework assignment for which such assistance is not permitted, falsifying a document to obtain an excusal from a test, and using unauthorized notes on a test or quiz. A more complete definition of

Academic Misconduct is given here. Penalties for Academic Misconduct range from an F in the course to expulsion from the university.
